

Prairie Thunder Intro to Competitive Shooting Class

When: 8/8/26

Where: Pete Lein & Sons Shooting Complex North
Range Bays 1 & 2

The class is for shooters who have never participated in these types of shooting competitions.

We will go over basic rules, divisions, gear setup and range etiquette for anyone wishing to learn more and are interested in participating in matches.

We will be focusing on USPSA and Steel Challenge.

We will have a demonstration USPSA and Steel Challenge stage setup to try out in a relaxed stress free environment.

If you wish to shoot both stages please bring: a pistol in good condition that has been cleaned and lubricated. Caliber: At least 9mm or .38 Special, enough magazines or speed loaders to shoot 24 rounds without stopping to load magazines. Magazine/speed loader carrier if you have one, a belt carried holster; 50 rounds of ammunition.

If you have any questions please reach out on Facebook or email us: prairiethundergc@gmail.com or visit our website at <https://prairiethunder.org/>
